**EDIT Value**  
Pilot Phase in AUSTRIA (SME 2)

**Sector:** Producer of animal feed  
**Size:** 32 employees  
**Products:** Animal feed  
**Annual Turnover:** 24 Mio EUR

- The EDIT Value piloting took place from March to June 2014
- One facilitator, two members of the management team and the team of STENUM were involved in the EDIT Value process.
- Quotation: „Resource efficiency is very important for us, therefore we want to test the EDIT Value tool“ – Production manager of the SME at the final meeting

---

**Lessons learnt**:  
- The optimization of energy efficiency is very important and basic elements for an energy management system will be implemented  
- For the detailed analysis of the heat recovery system external support is necessary  
- The company needs guidance for filling in the Edit Tool forms  
- A translation of the worksheets into national language was necessary
